

Patient Reminder: Continue to seek medical help from your practice

Although we have brought in changes to the way that we are managing patient requests, mainly that we are using a total telephone triage approach in the first instance, we wished to remind our patients that we are still open and running services (despite our doors being closed!).

Many conditions are able to be safely dealt with during a telephone appointment and following this, if you do need to be seen by a member of our team, this will be arranged with you.

With this in mind, we would like to remind all patients that they should not put off seeking help from the practice during this time if they have a medical need or concern.

We thank you for your continued support at this difficult and unprecedented time.
